

# Emergency Water Supply

Introducing the  
**AquaPodKit Portable**  
 A convenient way to transport emergency water

**Usage:** Your complete Aquastorage box is now ready to fill. Please be sure to tightly replace cap to ensure a watertight seal. Please use care not to soak cardboard as it will degrade the material. This cardboard unit is constructed with a water resistant adhesive (WPA), but will not completely prevent water degradation. **Warnings:** Please store only water in this unit—not suitable for fuels or other corrosive or hazardous materials! Always keep plastic away from children, babies and other susceptible people or pets! Material could pose a choking hazard! Use a known government-approved source for potable water. Do not microwave. Do not store above 90° F / 32° C, in direct sun or with poisonous or ill smelling articles. **Disclaimer:** Seller makes no warranties in connection with the sale of this product. This property is sold "as is". There is no implied warranty of merchantability or fitness for a particular purpose and there are no express warranties, oral or written.
